

## Use an Effect

You can apply effects to a picture, a selected part of a picture, or a sticker.

- If you want to run the effect on the whole page, click the Arrow tool on the paint options panel and click the picture.
- If you want to run the effect on a sticker, click the Arrow tool on the tool palette and click the sticker.
- If you want to run the effect on a selection, click the Selection tool on the paint options panel.

Select an area of the picture.

- A. Once you have made a selection, click the Choose button next to Effects on the Options panel.

You will see the Effects Options panel.

- B. Click an effect to select it.

- C. To apply the effect using the default settings, click the Apply button.

The effect will be applied to the picture or selection.

To change the settings for the selected effect, click the Edit button below the list of effects.
