

## Use the Stretch Tool

You can use the Stretch tool to distort areas of an image.

- A. Click the Paint button on the toolbar.

You will see the Paint panel.

- B. Click the Stretch tool.

- C. Change the size of the Stretch tool using the Size slider in the Options panel.

Drag the slider to the left to make the stretch tool smaller. Drag the slider to the right to make the stretch tool larger.

- D. Click and drag on the page to stretch the image.
