

Many get stuck with the problems in spelling. To become a spelling star, it requires a lot of readings and practice. It is even harder this time since texting interferes into the spelling world.

Spelling

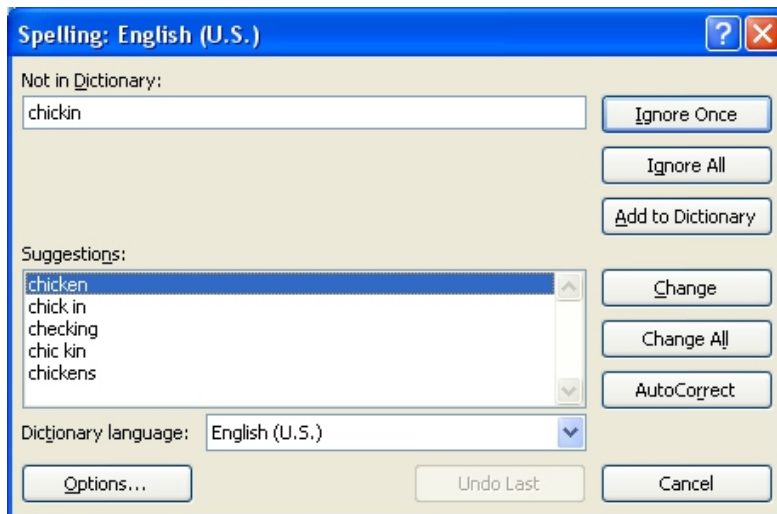

Press the **[F7]** key on the keyboard to launch the Excel Spelling dialog box.

The spell checker will give suggestions.

To change a word to the suggested word click on the **Change** button or the **Change All** button if it is a repetitive word.

To ignore a word click on the button or the **Ignore All** button if it is a repetitive word.

Click the **Close** or **Cancel** button to stop the spelling checker.
