

Lines Lane

Activity 11

Directions:

1. Follow the steps on how to run MS Paint.
2. Draw the different types of line that you can draw in Paint: Pencil, Brush, Straight Line and Curved Line. Place each type of line inside a box.
3. Label your lines individually.
4. Erase or cancel some changes that you have done to your drawing, if there are.

Preview:

5. Save the file as **LINESLANE**.
