

LESSON 3

Using Painting Tools

LEARN

Use Kid Pix Painting Tools for a dazzling types of realistic and out-of-this-world painting effects. Choose from Paintbrushes, Sound Art, and Spray Cans. Each tool has two modes.

To paint:

Step 1. Click the Paint button.

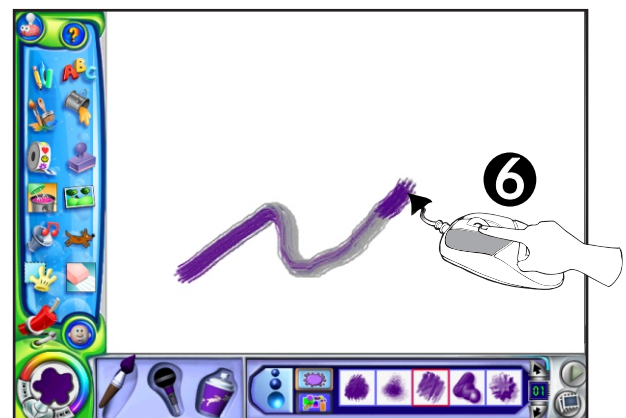

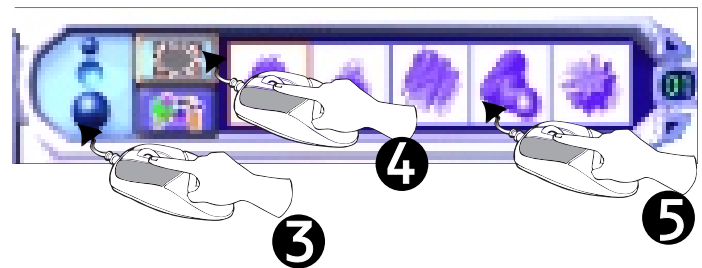

Step 2. Click the Paintbrush, Sound Art, or Spray Can tool. Look on the next few pages for more information about each kind of tool.

Step 3. Choose a size.

Step 4. Choose a painting mode. When you pick a mode, the options change.

Step 5. Choose a painting option.

Step 6. Click in the drawing area and hold down the mouse button. Move the mouse around to paint.

Paintbrushes

Click the Paintbrush and choose a brush size and painting mode. Realistic mode paints like a real brush.

Sound Art

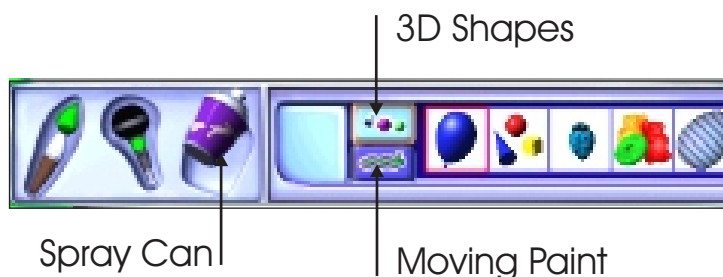

To use Sound Art, talk, sing, or play music into a microphone attached to your computer. Mouse-move lets you direct the painting with your mouse. You must speak into the microphone at the same time you depress the mouse button. Release the button to move the microphone icon (pointer) to another part of the page.

Hands-free lets the sound do the painting.

Spray Cans

3D Shapes mode sprays three-dimensional balloons, candy, shapes, or bugs. Moving Paint mode sprays balloons, bubbles, and creatures that dance, fly, hop, or wiggle.

WHERE YOU BELONG

Activity 9

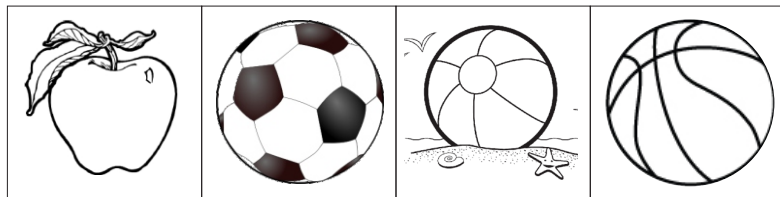

Circle the pictures in each row that belong together.

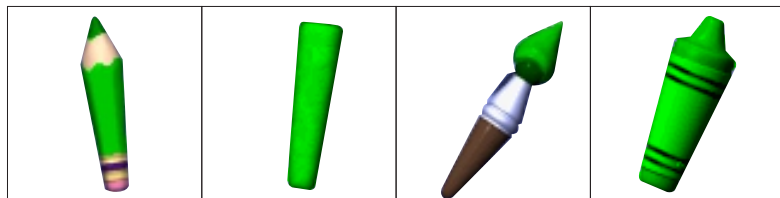

Row 1

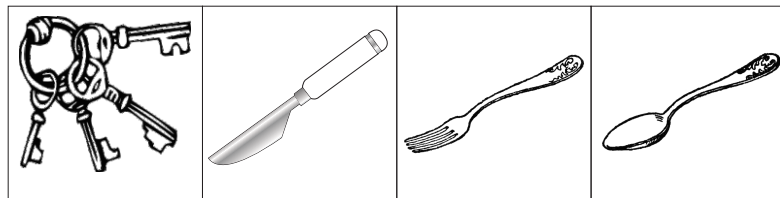

Row 2

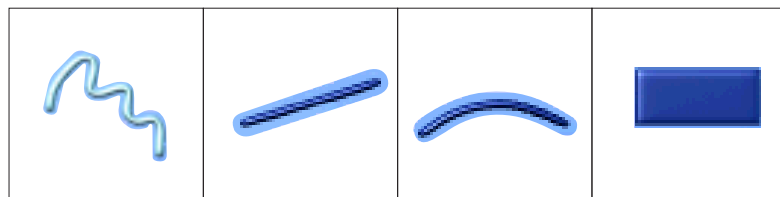

Row 3

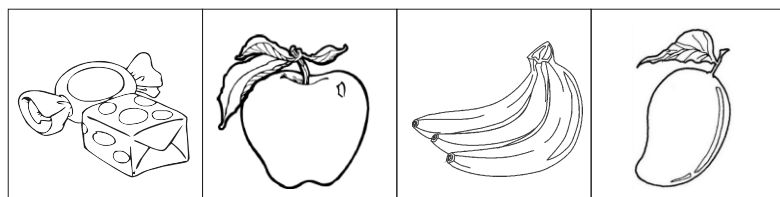

Row 4

Row 5

Row 6

My Portrait

Activity 10

Draw a picture of yourself using the brush painting tool. Furthermore, use the spray can tool to enhance your picture. Use Kidpix to complete the activity.
