

Open Office for Kids(OOo4Kids)

This word-processing program was specially made for kids. It makes it easy when making and composing documents such as poems, stories and many more.

OOo4Kids is a tool that makes pupils create arts, insert pictures and even print documents that they have made. This section focuses on the Open Office Writer only while learning interesting topics on Science, English and Math.

Dive-in to Ooo4Kids now and have fun improving your new and existing document.

The Main Menu Screen

Main Menu has different programs to choose from. This is a complete office package especially designed for kids like you. In this section, we will focus on the word processing program which is Open Office Writer. Below are the different programs of the package.
