

# Back on Ground

## Backgrounds

### Activity 24

Directions:

1. Launch Pixie.
2. Open and perform Activity 24 **Background Perfect 2**.
3. Do the following:
  - a. Type the text about Cheetahs.
  - b. Change the font style, size and color to make it readable.
4. Save the activity as **Background Perfect 2**.

#### How Can Cheetahs Run So Fast?

Over short distances, the cheetah is the fastest animals on land. Its speed is due to the special way its body is built. The cheetah has a backbone that bends easily. That allows this big cat to spring forwards in great leaps. The cheetah also has long thin claws on its feet. These work like spikes to grip the ground and help the cheetah run very fast.
