

Populated Cities

Formatting Text

Lesson 20

Activity 64

Directions:

Score

1. Launch MaxCount.
2. Open and answer Lesson 20 Activity 63 **Famous Cities**.
3. Add two column headers: Average Newly Born and Average Died every year.
4. Compute the added columns as:

$$\text{Average Newly Born} = 10\% \text{ of the population}$$

$$\text{Average Died} = 15\% \text{ of the population}$$

Note: To compute the two new columns, you need to multiply the population with the percentage.

4. Format each column to make it presentable.
5. Save the activity as **Populated Cities**.

Preview:

FAMOUS CITIES			
Cities	Population	Average Newly Born	Average Died
Berlin	3400000		
Boston	5800000		
New York	8100000		
London	7000000		
Chicago	3000000
