

Note: The steps below work with computers that is connected to the internet only.

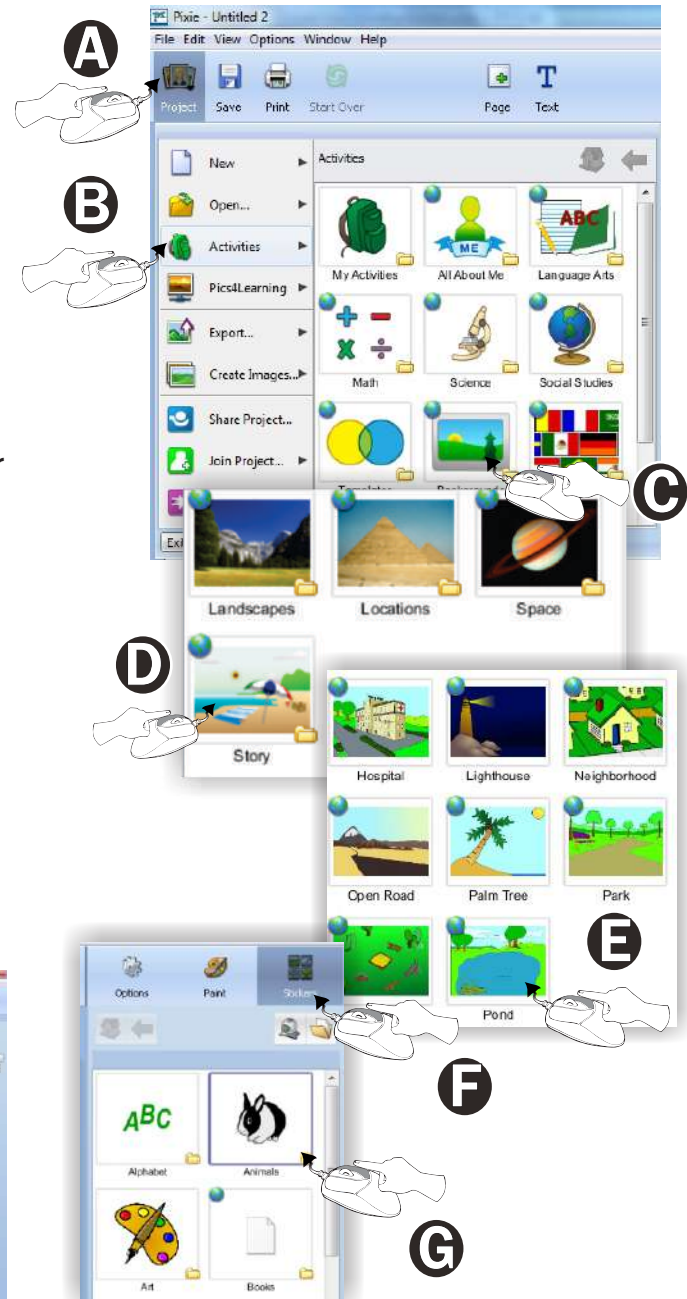

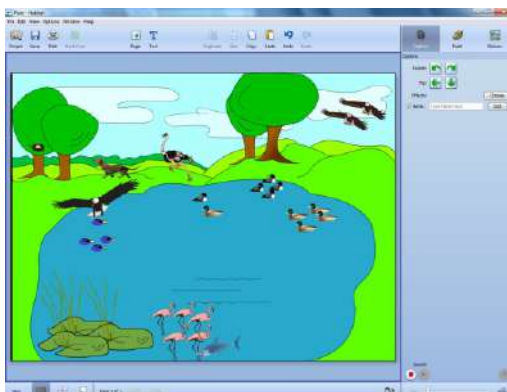

Creating a New Project from a Template

Making an art work starts here. To show you how to make one, just follow the steps below as we create a habitat.

- A. Click the Project button.
- B. Select Activities.
- C. Click Backgrounds.
- D. Choose the Story folder.
- E. Choose Pond until the background selected loads in your canvas. Stamp appropriate stickers in your habitat.
- F. Click the Stickers button on your right.
- G. Select the Animals stickers from the different folders of animals in your habitat. A sample picture below is shown.
- H. Save your work and name it **HABITAT**.
