

## Selection Tool

You can use the Selection tool to select part of a picture or a painting. Once you have made a selection, you can move, resize, or delete it.

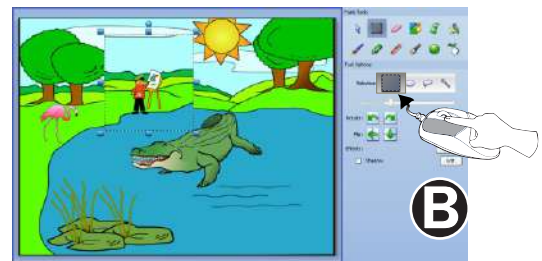

- A. Click the Selection tool on the Tool Palette.

You will see the Selection tool options in the Editing Panel.

There are four different options for the Selection tool. What are they?

- B. The Rectangle option allows you select a rectangular or square part of the painting. Click the Rectangle option, then click and drag on the picture to select a rectangular area.

- C. The Oval option allows you to select an oval or circular part of the painting.

- D. The Magic Wand option allows you to select a range of colors in a picture or painting. Click the Magic Wand option, then click the area you want to select.
