

Input For Output

Lesson 1

Activity 3

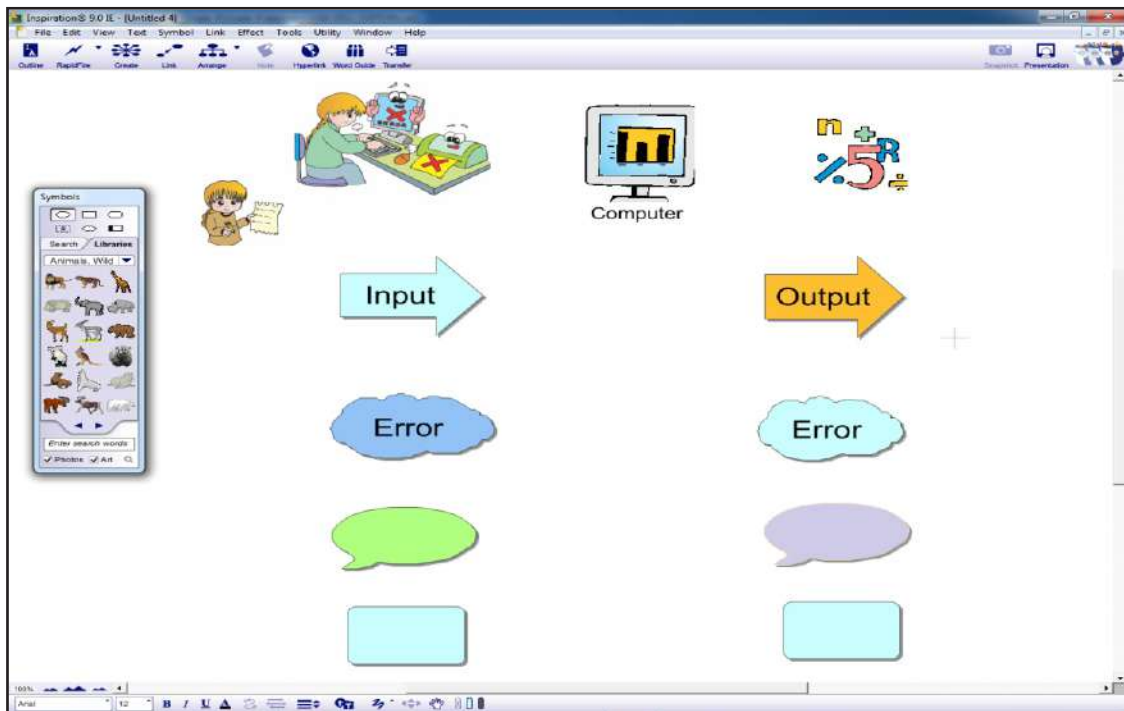

Directions:

Score

1. Launch Inspiration.
2. Open and perform Lesson 1 Activity 3 **Input For Output**.
3. Provide some computer inputs which become an output at the same time. Use any pictures from the library to replace the given symbols. Link the inputs toward the outputs using the Link tool.

Computer error is human error because whatever the output of the computer is based upon the data that you input.
