

Lesson 9

Spelling Button

Spell Well Spelling Check

In MaxWrite, the **Spelling** button allows you to check the spelling within your document.

1. Click the Spelling button to check if there are spelling errors in the document.

If there are spelling errors in your document, the Check Spelling dialog box will be displayed.

The spell checker will select a likely replacement word from the suggestions list.

Use the  **Up** button,  **Down** button,  **First** button, or  **Last** button to move through the suggested words if the replacement word is not correct.

2. Click the **Replace** button to replace the incorrect word with the replacement you have selected.
3. Click the **Ignore** button to leave the word as it is in the document.
4. If there are no spelling errors the following dialog box will be displayed.
