

LESSON 5

Using Mixers

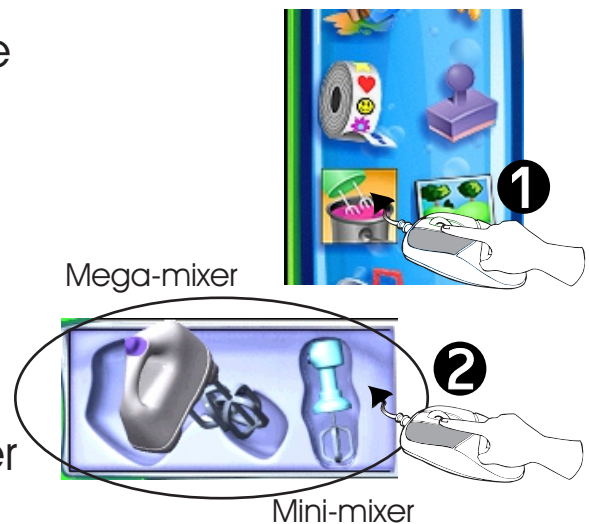

LEARN

Mixers mix up your picture. You can mix up the whole painting with a mega-mixer, or just parts of the painting with a mini-mixer.

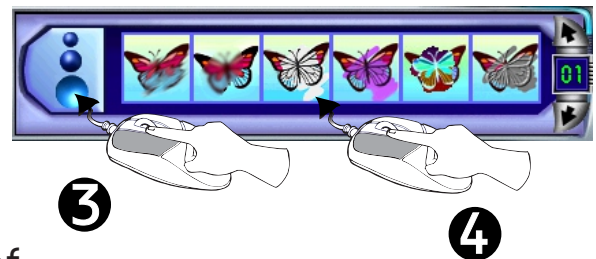

To mix things up:

Step 1. Click the Mixer button to see the Mixers tray.

Step 2. Pick the mega-mixer or the mini-mixer from the left side of the tray. The mega-mixer mixes up the whole picture with one click; the mini-mixer mixes where you drag the mouse.

Step 3. For the mini-mixer, choose the mixer size.

Step 4. Choose a mixing effect option from the right side of the tray,

Step 5. Click your picture with the mega-mixer or drag the mouse with the mini mixer to mix areas on your picture.

Mixer Tips

- Mix up an imported photograph for fun results. For information on importing photos, see "Adding Pictures from Other Programs."
- You can change the size for some mini-mixers. Use different sizes for different effects.

Hard Working Kids

Activity 14

Hands-on Activity

Valuing Activity

Color the pictures that show a hardworking kid(s) else mark a big cross (x) on pictures that does not. Use the Mixer tool to enhance the pictures.
