

## Parts of Pixie Window

### 1. Standard Toolbar

It contains the usual buttons like creating new project, saving, printing, copying, pasting, undoing, and redoing. Special buttons are also found here like the add page, text tool, start over, duplicate and the glue tool.

### 2. Color Swatch

Choose from the different colors to make an art cooler. Use the slider to apply faded effects.

### 3. Drawing Area or Canvas

It is your workspace or the drawing area, where you can insert stamps, text and your original drawings.

### 4. Paint Tools

All the art tools can be found here. Surely, you will have fun to all of these tools.
