

# UNIT 4

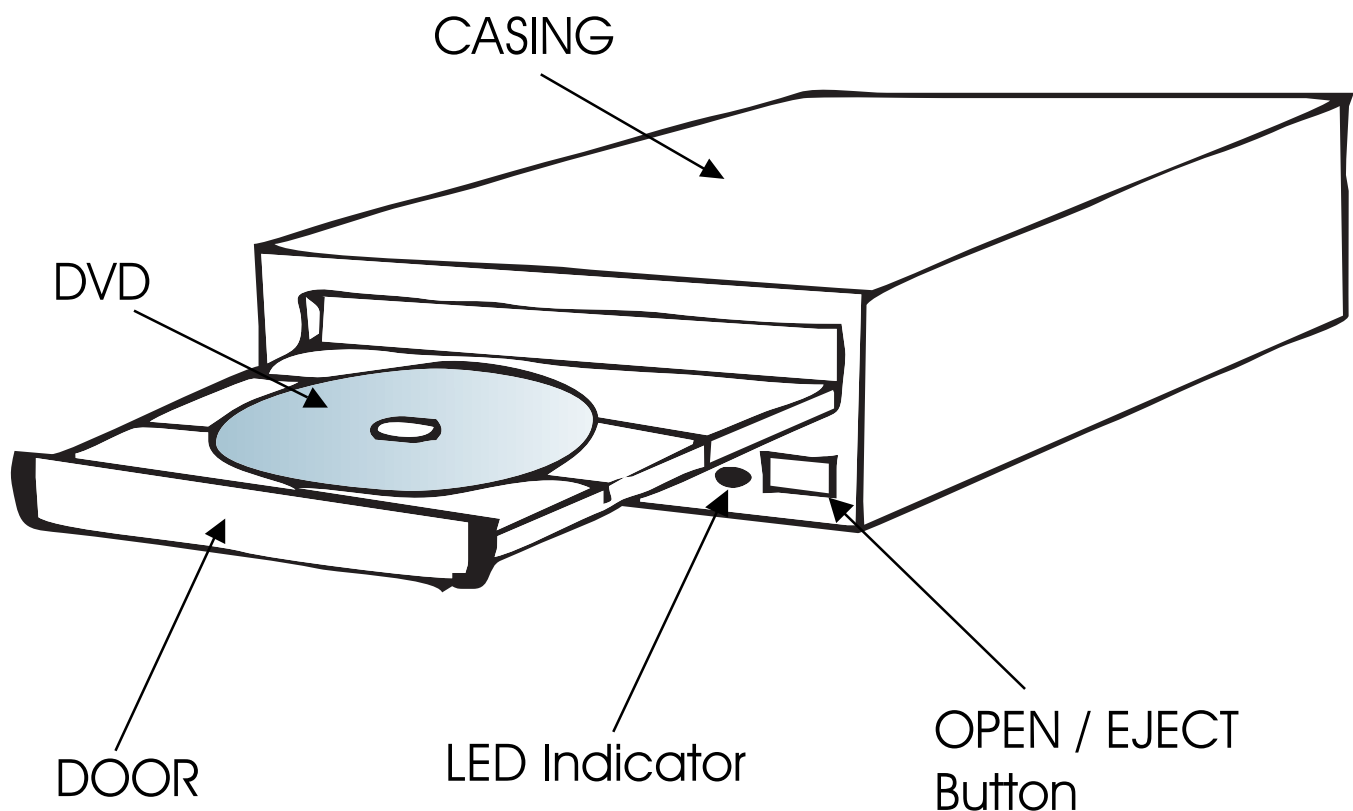

## PC ACCESSORIES

# LESSON 1

## THE DVD, DVD Drive AND ITS PARTS

The Digital Video Disc(DVD) Drive is used to access and read the recorded data in DVD.

This optical disc is one of the storage device that is commonly used to store different types of data.

There are different types of DVD disc, namely the DVD-R and DVD-RW.

DVD-R is an optical disc where you can only store and write movies, songs, documents and other data. Once it is written it cannot be erased.

DVD-RW is an optical disc where you can write, rewrite and erase data like movies, songs and documents.

# Simple Addition

## Activity 1

Written Activity

Count the computer parts and write the numbers below to tell how many in all.

1.  and  equals  

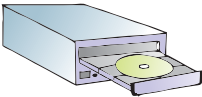

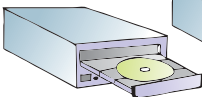

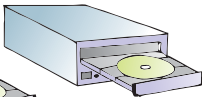

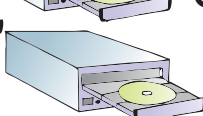

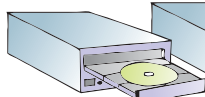

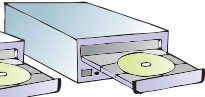

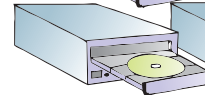

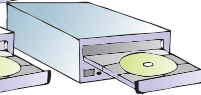

..... + ..... = .....

2.  and   equals   

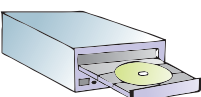

..... + ..... = .....

3.   and  equals   

..... + ..... = .....

4.  and    equals    

..... + ..... = .....

5.   and  equals  

..... + ..... = .....

# Go Together

## Activity 2

Drag the naming words from the word bank into the correct box. Use the Kidpix's Grab tool to complete the activity.

A noun is a word that names a person, place or thing. When you read a sentence, the noun is what the sentence is about.

**Person**

**Thing**

**Place**

**Word Bank**
