# Add Text

You can add a Text Object to a picture.
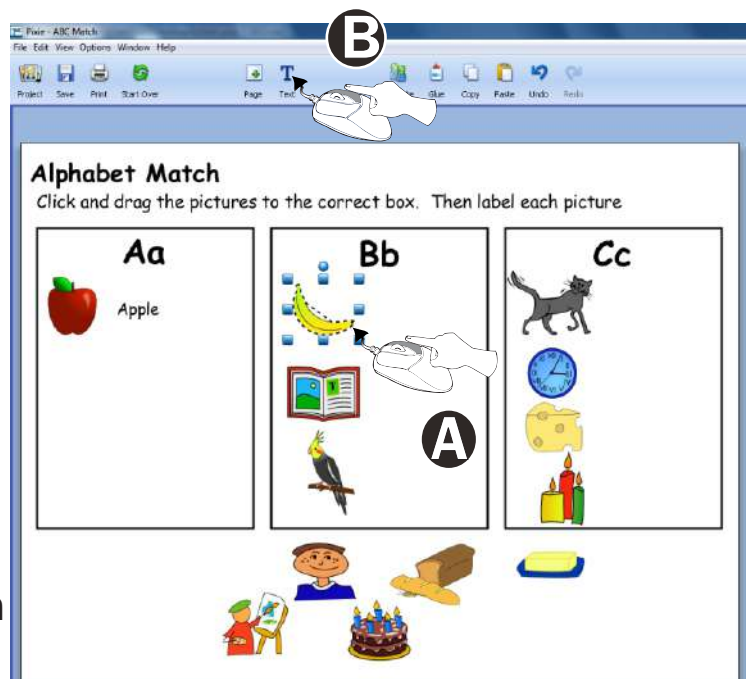

A. Click the Text tool on the toolbar.
You will see a text object in the middle of the page.

B. Type the text you want to add.
Click and drag the text box to put the text in your desired location.

C. Click the picture outside of the text object to deselect it.

Glue Tool

To make your text, stickers and other objects permanent to its location in the canvas use the Glue tool to paste permanently.

A. Click the object or sticker that you want to apply glue feature.

B. Click the Glue button.

Notice that sticker was pasted/glued permanently in your canvas.

🖪 Formatting Text

You can change the font, size, style, alignment, and color of text.

A. Click the text object you want to change.

> You will see text options in the Options panel.

> Use the Font pull-down menu to choose a new font.

B. Click and drag the Size slider to change the size of the text.

> Drag the Size slider to the left to make the text smaller. Drag the Size slider to the right to make the text larger.

C. Click the style buttons to make the text bold, italic, or underline.

D. Click one of the alignment buttons to set the text alignment to left, center, or right.

E. Click a color on the color palette to change the text color.

The text in the text object will change to reflect the new settings.
