MaxPaint draw

1. Select a color.

   Teal is selected.

2. When you click and drag the slider button to the left or right, the thickness of your drawing item will increase or decrease.

3. Select the drawing tool that you want.

4. Start drawing on the pad.

Other drawing tools:

Fill button colors the large sections at one time, example; you can draw a square □ and use the Fill button to change the inside color of the square ◼ to any color you like.

Eraser button allows you to erase a small area.

Undo button undoes the last thing that you drew.

Clear button clears the drawing pad.

Save button saves the drawing into your Personal Clipart Gallery.

Paste button allows you to paste bitmap images from the Internet or other sources directly into MaxPaint.

OK button inserts the picture into your document.
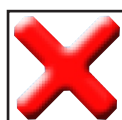

Cancel button returns you to your document without inserting the picture.

Stamp button. The Stamp button displays a list of stamps. Select a stamp by clicking on the stamp (it will appear with red border) and click on your drawing to place the stamp.

 The Small Stamp button changes the size of the selected stamp to small.

 The **Regular Stamp button** changes the size of the selected stamp to medium.

 The **Large Stamp button** changes the size of the selected stamp to large.

 The **Flip button** changes the direction of the stamp when it is placed on the drawing pad.

 The **Background button** provides a series of available drawings. Select the background that you would like to use and click on the pad.
